# *The Dance*

## Sculptures by Cynthia Aldrich

May 10 – July 11, 2017

“Everyone is a dancer on some level.

“We may not be the dancer who is on a stage but we walk, lean, run, gesture, meander, and live our lives with fluidity.

“All of my sculptures are dancers who are all paused in the same single moment during the dance. They are caught in a second of stillness: movement implied but life fleetingly stopped. They are all unique in that choreographed moment yet the pose is essentially the same. We know the movement and the dance will continue but perhaps we will now look more carefully and appreciate the way in which each dancer finishes their part.”

~ Cynthia Aldrich
